

April 19, 2007

Marlene H. Dortch, Secretary
Federal Communications Commission
Office of the Secretary
445 12th Street, SW
Washington, DC 20554

Re: WT Docket 96-86

Dear Ms. Dortch:

Pursuant to Section 1.1206(b)(2) of the Commission's Rules, this is to notify you that on April 18, 2007, Stu Overby, David Eierman and the undersigned, all with Motorola, met with Dana Shaffer, Jeff Cohen and Carol Simpson, of the Public Safety and Homeland Security Bureau regarding the above captioned proceeding.

During the meeting we discussed the attached presentation describing the benefits of rearranging the public safety portions of the 700 MHz band to more efficiently accommodate broadband technologies, but did not take a position on specific plans that extend beyond the public safety portion of the band. We also discussed certain advantages of wideband technologies and the importance of allowing flexibility to deploy those technologies. Motorola strongly supports the position of the Association of Public-Safety Communications Officials (APCO), International Association of Chiefs of Police (IACP), National Sheriffs Association (NSA), Major Cities Chiefs Association (MCCA), and Major County Sheriffs Association (MCSA) that the Commission should not adopt a ruling that would preclude future wideband data operations in the 700 MHz band.

Pursuant to the Commission's Rules, one copy of this notice is being filed electronically with the Commission. If you require any additional information please contact the undersigned at (202) 371-6953.

Sincerely,

/s/ Steve B. Sharkey

Steve B. Sharkey, Director
Director, Spectrum and Standards Strategy

Cc: Dana Shaffer,
Jeff Cohen
Carol Simpson
